

NIXOTINE®
Flavored Nixodine®

MULTI-USE INNOVATIVE ALTERNATIVE TO NICOTINE
HITS ALL THOSE "FEEL GOOD" SPOTS

**PMTA
Exempt**

PMTA EXEMPT based on
legal opinion and no vapor
taxes in most states

Exempt from vapor taxes
in most states and legal to
sell in all 50 states. Nixotine is
not a synthetic nicotine, but a
vitamin based nicotine alternative.

Nixotine is carefully designed to
give the same experience and feel
of traditional nicotine without any
tobacco or nicotine in the formula.

In fact nicotinamide, the active ingredient in
Nixodine® is meant for that B group which is why
you would get the same feelings.

The statements made in this pamphlet and on our website have
not been evaluated by the U.S. Food and Drug Administration
(FDA). Nixotine is not intended for use in the diagnosis, cure,
mitigation, treatment, or prevention of disease. Nixotine® may be
addictive and should be used with caution. Read all warnings on
the back of this pamphlet. Not intended to be mixed with nicotine
or other tobacco products. **RECOMMENDED FOR USE** in a
Nixotine B or compatible device.
